Strengths in creativity, teamwork, leadership, and project management.

TECHNICAL SKILLS

Languages: JavaScript ES6+, CSS3, HTML5, SQL, NoSQL
Applications: GitHub, MongoDB, MySQL, VSCode, Insomnia
Tools: Express, React, Node, Handlebars, Query, Bootstrap

PROJECTS

Windows 95 | github.com/Jguiro09/Windows-95 | https://windows-95-uta.herokuapp.com/
- Website that simulates the operating system "Windows 95" with accommodating fake programs such as Notepad. Allows a user create a login, which is saved into a SQL database, and save any progress they make within the simulation.
- Overviewed all code, Spent time peer-editing with each Collaborator ensuring they understood what their end goal was, Reformatted code in order for future scalability.
- Tools: Handlebars, CSS, JavaScript, Bootstrap, Windows95 UI Kit, MySQL, Express, Node

TopTourist | github.com/Jguiro09/TopTourist | https://jguiro09.github.io/TopTourist/
- Summary: Website that allows users to search any city within the United States and find the closest and most popular locations ranging between food and activities. TopTourist also allows you to find the closest and highest rated hotels within the city.
- Created code to allow the API information to output dynamically, Assigned each Collaborators with tasks and spent time to explain the significance of their part.
- Tools: HTML, CSS, JavaScript, API, Bootstrap, MaterializeCSS

Weather Dashboard | github.com/Jguiro09/Weather-Dashboard | https://jguiro09.github.io/Weather-Dashboard/
- A dashboard that utilizes the Open Weather API to dynamically update HTML to show the weather conditions of the city the user inputs.
- Successfully making calls to a Third-Party API, Allowing a users search history to be saved and displayed on the dashboard, Utilizing Bootstrap to create a responsive web design.
- Tools: HTML, CSS, Bootstrap, JQuery, OpenWeather API, Moment.js

WORK EXPERIENCE

Little Tots Learning Center, Houston TX   **2020-2021**

Head Teacher

Responsible for managing a class of over 15 students during the week with minimal supervision. Created custom curriculums for different children to have an easier time learning. Served meals such as lunch and snacks throughout the day. Often called to help co-workers resolve conflicts.

Key Accomplishments:

- Developed an inventive mindset that is utilized to address problems.
- Worked with other co-workers on creating and executing curriculums to help improve our students' learning experience.

EDUCATION

Certificate, Full Stack Web Development: Graduation **September 2021 | University of Texas, Austin**

12-week program focused on obtaining both technical skills and experience in languages in technologies such as HTML5, CSS3, JavaScript, JQuery, Bootstrap, Node.js, MongoDB, Express.js, Handlebars.js, & React.js.
